40 years of experience in people helping people
Connecting people and homes to improve outcomes

www.ResCare.com
People Helping People
ResCare Residential Services has been in the business of helping people to achieve quality outcomes at home or in a home-like environment since 1974. It’s what we do.

- We employ more than 30,000 skilled, experienced and compassionate professionals across the country, serving 60,000 individuals every day.

Care Management Solutions
One in every 10 American families is directly affected by a loved one with intellectual or developmental disabilities (IDD). Helping people live their best life is what we do. That’s why we’ve invested in unique, innovative care management solutions that improve quality and outcomes and lower the cost of care.

- Our Connected Home is an industry-leading, best in quality and compliance model that includes using Electronic Health Records (EHR), medication management, remote monitoring, telecare and behavioral services to create an outcomes-based environment that helps people to live their best life.

Quality and Safety Programs You Can Trust
Community-based homes offer individuals the opportunity to live independently within a safe community that includes a technology-led approach to safety and quality.

- Our sole focus is to provide quality programs that center on safety, trust, attitude and respect with skilled training so you can be confident that ResCare is the right choice for your Residential Service needs.
