ALZHEIMER'S — Living Independently with Grace, Honor and Togetherness

Alzheimer's affects more than memory. The disease impacts social interaction, physical ability and emotional well-being.

Our caregivers understand the difficulties loved ones and family caregivers undergo when faced with Alzheimer's. When you entrust the care of your loved ones to ResCare HomeCare services, you know they will be supported with grace, patience and compassion.

**Over 5 million
Americans
are living with
Alzheimer's**

35% of caregivers report deteriorated health
when caring for a family member with Alzheimer's or dementia
