Sense of Home

Powered by Rest Assured®

Your loved ones want to stay in the comfort of their home, and you want to make sure they're safe. Our Sense of Home program connects the family, monitors safety, provides medication reminders and supports memory stimulation.

Sense of Home provides additional support and access to a family portal that encourages involvement for family members who live at a distance. Sense of Home enhances the care provided by ResCare HomeCare.

Support at the touch of a screen

Sense of Home services also prompt your loved one to engage in exercises and activities that spark memories and encourage emotional expression. Through virtual drop-ins, family members can socialize with loved ones and be a part of their care.
